

Interlocking Hinged Clips

The Talon Interlocking Hinged Clip offers a 360° fixing for pipework. Manufactured in the UK this high quality polypropylene clip offers the user a secure fixing.

All sizes of the Interlocking Clip can be connected together via the dovetail to allow for equal pipe spacing.

Single Hinged Pipe Clip

The Single Hinged Clip is available in a range of sizes both 'standard' format and 'Flexi-Clip' style. The Flexi Clip range offers the user a clip capable of holding pipes of varying diameters between an upper and lower limit.

Quick-Locking Hinged Clips

A range of robust clips designed to withstand repeated opening and closing offering secure 360 degree pipe retention. This range of hinged clips provides a very secure grip when the pipe is in place and the snap tight locking top offers complete security of the pipe. The high stand-off allows for lagging and heat circulation.

A spacer is available to suit all single clips to allow a greater stand-off where site conditions apply or where thicker lagging is used.
