

Tower 3-port mid-position motorised valve

Tower Controls

Product code:

VAL322MP

VAL328MP

Tower 3-port motorised valves are designed to provide control for heating and hot water.

There are two versions, for either 22mm or 28mm pipework. Compression fittings are supplied.

These valves have a replaceable actuator head, which can be exchanged without needing to drain-down the system.

When installed with suitable room and cylinder thermostats, provides automatic regulation of heating and hot water; mid-position when both services are required.

Technical specification:

- Synchronous motor drive / spring return action.
- 1m 5-core flex.
- Industry standard flex colours: white; blue; grey; orange; green/yellow
- Auxiliary switch
- Switch rating 3A resistive
- Integrated manual lever for commissioning purposes.
- Supply 230V 50Hz / power consumption 6W
- Operating temperature range: +5 to 88°C
- Maximum differential pressure 1 Bar
- Maximum static pressure 10.0 Bar
- Maximum fluid temperature 100°C
